

MATERIALS

- Machining steel
- Tempered steel (C35, C45,...)
- Stainless steel (VA 1.4104 / 1.4305 / 1.4301...)
- Tooling steel
- Non-ferrous metals and alloys (various brass, aluminium alloys, aluminium bronze)

FURTHER PROCESSING

- Grinding
- · Barrel finishing
- Electropolishing
- Laser marking
- Thermal Treatment
- Galvanic treatment
- · Thread Locking

PARTS RANGE

- · Eccentric turned parts
- · CNC turned & milled parts
- Long and short turned parts

TURNING RANGE

- · Diameter: 3 mm to 25 mm
- · Hexagon: Spanner width (SW) 5 to 19
- · Length: 1 mm to 650 mm

PRODUCTION LOT

- Sample production / small quantities (from 1 pc. up)
- To mass production (1 to x million pcs.)

PROCESSING

- Turning (centric & eccentric)
- Drilling
- Milling
- Thread cutting, chasing, milling, rolling
- Hexagon socket (positioned: centric & eccentric)
- Torx or internal hexalobular socket (positioned: centric & eccentric)

MACHINERY

- Mainly CNC machinery (up to 10 axes)
- Indexing table machines (Multiple processing steps)

QUALITY / CERTIFICATION

• ISO 9001:2015 (since 2002)

SERVICE

- Technical consulting / engineering & solution ideas
- Consignment stock / warehouse
